

Year 1 Geography Knowledge Organiser Term 4 2024

This term in Geography we will be learning how to read maps.

Firstly, we will be looking at bird's eye view drawings of the school.

Secondly we will be looking at exploring the school site and the local environment using a map and identifying symbols.

We will then be continuing to use our map knowledge to explore the local area using directional language such as north, south, east and west.

Vocabulary

bird's eye view,
business,
compass,
data,
directions,
diversion,
east,
environment,
far,
feature,
key,
landmark,
left,
local,
mode of transport, near,
north,
orienteeing,
OS,
planning,
QR code,
right, route,
south,
symbol,
west.

We will be using technology such as Apple maps and Strava to map our class walk and to begin to understand routes and direction.
